Education

Brandeis University — Waltham, MA
B.S. in Computer Science, Minor in Near Eastern and Judaic Studies — *Expected May 2028*
- Study Abroad: IFSA Tech Career Accelerator, Prague, Czechia (Fall 2026)

Methodian Full Stack Development Bootcamp — Jerusalem, Israel
Full-stack web development — *Fall 2023*

Projects

Troniworld | *Python, Flask, JavaScript, SQLAlchemy* — January 2026 – March 2026
- Built and shipped a full-stack web platform used by **30+ players and coaches** on the Brandeis Men's Ultimate Frisbee team for game-film review, team discussion, and player analytics.
- Built YouTube game import, point-based film navigation, threaded comments, viewing-progress tracking, and player and team statistics.

Dominion Card Game Engine | *Java, Maven, Docker, GitHub Actions, Azure* — January 2026 – May 2026
- Built core gameplay systems in a **4-person team**: card effects, turn sequencing, game-state management, and player interactions.
- Worked in a multi-developer Git workflow with **automated tests and CI/CD**; containerized the app with Docker and **deployed it to Azure**.

Experience

Software Engineering Intern — January 2024 – May 2024
ReShuffle.Education — *Tel Aviv, Israel*
- Built a **Python (Discord.py) bot** that automated community support and moderation through interactive commands, forms, and spreadsheet-configured responses.
- Developed **database-backed** tracking and moderation tools: user histories, staff notes, incident logging, private timeout channels, and role-restricted moderator controls.

Undergraduate Teaching Assistant — August 2025 – May 2026
Brandeis University — *Waltham, MA*
- *Advanced Programming with Java:* Led recitations for 40+ students on OOP, data structures, and algorithms; held debugging office hours; graded code with detailed feedback.
- *Intro to Engineering Design:* Mentored students through CAD, 3D printing, rapid iteration, and physical prototyping.

Coding and Engineering Instructor — June 2026 – July 2026
The Lawrence Hall of Science, UC Berkeley — *Berkeley, CA*
- Taught conditionals, loops, variables, functions, and pair programming to 96 middle school students in block-based coding, Python, and JavaScript.
- Gave real-time code reviews and debugging help as students designed, built, and programmed nano-satellites.

IT Support — January 2025 – Present
Brandeis University ITS (Help Desk Technician) and Self-Employed — *Waltham, MA and Bay Area, CA*
- Resolve 30+ TeamDynamix tickets a week for 7,500+ users (authentication, Wi-Fi, account access, software setup), and support 15+ private clients across Windows, macOS, iOS, and Android.

Technical Skills

Languages: Python, Java, JavaScript, SQL, HTML/CSS
Frameworks and Libraries: Flask, SQLAlchemy, Discord.py
Tools and Cloud: Git, GitHub Actions (CI/CD), Docker, Maven, Azure
